Tentative Work Division

After creating proposal we decide to work in our group to complete our project in time. So, we divide project work into 4 members of our group. We hope every member of group complete their task and help to solve the problems of each other.

Functionalities

We should make such Strategy to work as a group. Solve problems of each other. Creat a project(Program) that is looking attractive for the user. And become error free executable file. We can also update/Delete any record. We can be able to search record of any patient.
